

ST909 Open Shoulder Drive

The ST909 is Sumitomo's most advanced S-Tech Design drive tire for regional applications. With the latest design elements, the ST909 provides superior traction, more miles per 32nd and an extra-wide tread face for increased vehicle stability. Exceptional performance and outstanding retreadability are strengths of the line.

FEATURES & BENEFITS

- Deep shoulder blocks for increased traction.
- Significantly wider tread face offers more consistent retreadability.
- Stone ejectors protect the casing from damage in the base of the tread groove.
- Advanced Y-shape groove design improves stone ejection, traction, and contributes to long tire life.

ST909

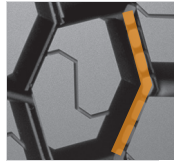

Open Shoulder Drive

S-Tech Design is a collection of the most advanced features Sumitomo has to offer in the new medium truck lines. It is the optimal combination of specific features in each application segment working together for maximum performance and durability. All Sumitomo tires are designed with a four belt package.

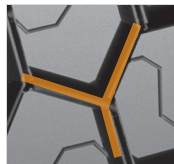

Deep shoulder blocks for increased traction

Stone ejectors to minimize stone drilling and protect the casing

Wider tread width for improved retreadability

Advanced Y Shape groove design improves stone ejection, traction and promotes longer life of the casing

PERFORMANCE DATA

- Superior wear performance
- Improved stone ejecting performance attributes
- Improved retreadability with wider buffing width

WARRANTY

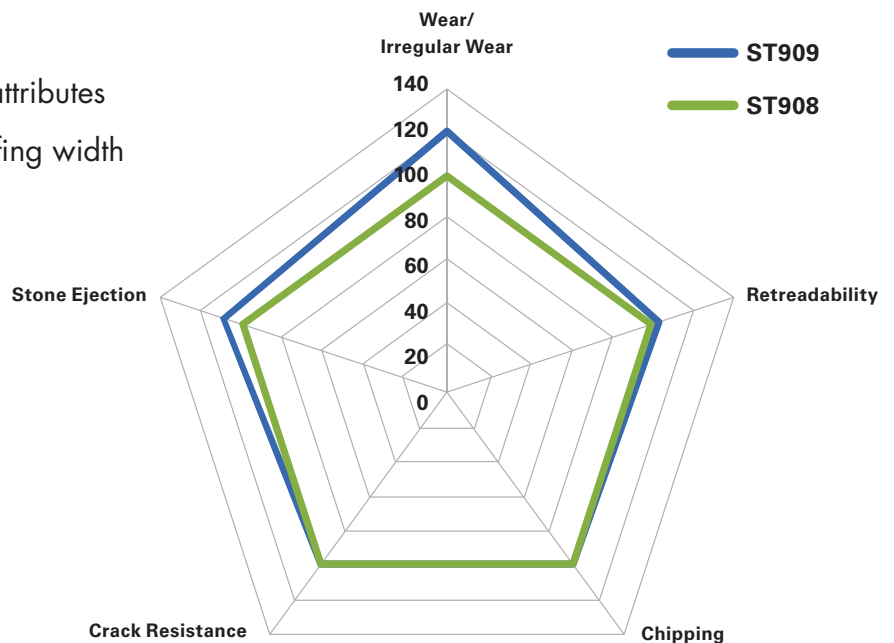

- 6 Years from Original Purchase Date
- 2 Recap Casing Warranty
