

ST719 All-Position Rib

The all-new ST719 is designed to meet the demands of regional and urban delivery service. Driven by advanced design features, including a wider tread width and high-scrub compounding properties, the ST719 delivers more miles per 32nd.

FEATURES & BENEFITS

- Wide tread face for increased vehicle stability.
- Anti-Scrub tread compounds.
- Advanced casing design for improved retreadability.
- Stone ejectors in the base of the tread groove to promote casing integrity.

ST 719 All-Position Rib

S-Tech Design is a collection of the most advanced features Sumitomo has to offer in the new medium truck lines. It is the optimal combination of specific features in each application segment working together for maximum performance and durability. All Sumitomo tires are designed with a four belt package.

Significantly wider tread face for consistent retreadability, with wide, solid shoulders that evenly disperse contact pressure for long, even wear

Optimal tread depth for maximum mileage.

Wavy tread groove design resists tread groove strain and helps stiffen shoulder rigidity for improved handling

Stone ejectors in the base of the tread groove promote casing integrity

PERFORMANCE DATA

- Reduced irregular wear and more miles to removal are achieved through a combination of:
 - Wider tread footprint
 - Anti-high scrub tread compounds
 - Optimal rib location & tread depth
- Improved retreadability with wider buffing width

WARRANTY

- 6 Years from Original Purchase Date
- 2 Recap Casing Warranty
