

# CROSSWIND TRAILTRAXX

## ALL WEATHER TRACTION

### Excellent wet and snow braking

Innovative compound and tread design featuring zig-zag siping for wet performance and snow traction.

## ALL TERRAIN DURABILITY

### Robustness and Mileage

High-strength carcass and cut-resistant compound prevent tread and sidewall from impact and scratches in rough terrain while providing high mileage.

## BALANCED ON-OFF ROAD PERFORMANCE

Optimized pitch arrangement and pattern stiffness provide low noise on road. Sidewall pattern and increased groove void volume provide outstanding off-road traction while preventing stone retaining.
